17. MAKE ME A CHANNEL OF YOUR PEACE

Make me a channel of your peace
Where there is hatred let me bring your love

Where there is injury, your pardon Lord
And where there is doubt true faith in You

Make me a channel of your peace
Where there is despair in life let me bring hope
Where there is darkness only light
And where there's sadness ever joy

Oh, Master grant that I may never seek
So much to be consoled as to console
To be understood as to understand
To be loved as to love with all my soul

Make me a channel of your peace
It is in pardoning that we are pardoned
It is in giving to all man that we receive
And in dying that we are born to eternal life

18. LITTLE DROPS OF WATER

Little drops of water,
Little grains of sand,
Make the mighty ocean
And the pleasant land.

Little deeds of kindness,
Little words of love,
Help to make earth happy
Like the heaven above.

19. A GIFT TO YOU

Everything I am
Everything I'll be
I give it to you Lord
And do it thankfully
Every song I sing
Every praise I bring
Everything I do
Is a gift to you
Everything I have
All you've given
I give it to you Lord
And do it thankfully
Every song I sing
Every praise I bring
Everything I do
Is a gift to you
Everything I am
Everything I'll be
I gift it to you Lord
And do it thankfully.

20. GOD WILL MAKE A WAY

God will make a way
Where there seems to be no way
He works in ways we cannot see
He will make a way for me

He will be my guide
Hold me closely to His side
With love and strength for each new day
He will make a way, He will make a way

Oh, God will make a way
Where there seems to be no way
He works in ways we cannot see
He will make a way for me

He will be my guide
Hold me closely to His side

With love and strength for each new day
He will make a way, He will make a way

By a roadway in the wilderness, He'll lead me
And rivers in the desert will I see
Heaven and Earth will fade but His Word will still remain
And He will do something new today

Oh, God will make a way
Where there seems to be no way
He works in ways we cannot see
He will make a way for me

He will...

21. PLEDGE

India is my country; all Indians are my brothers and sisters.
I love my country and I am proud of
Its rich and varied heritage.
I shall always strive to be worthy of it.

Teachers and all elders and treat everyone with courtesy.
To my country and my people,
I pledge my devotion.
In their well-being and prosperity alone lies my happiness.

2. Guidelines for students

Students should come to school properly dressed in clean uniforms. If a student is wearing colour dress, he / she should bring a letter of explanation from parents.

Students of the junior section will wear the sports dress once a week.

On their Birthday, when children come in colour dress, parents are requested to ensure that the dress is comfortably loose. Collarless T-shirts and sleeveless dresses must be avoided. In Std V to Std XII, Salwar Kameez with dupatta for girls and full pants and shirts for boys are suggested.

Maintaining Silence:

1. The students should maintain silence while coming to the assembly and going to the classroom.

2. Silence should be maintained while leaving the classroom for any activity.

Within the campus, all the students should converse in English. Usage of slang and swear words are strictly prohibited.

Within the campus all the students must walk one behind the other while moving from the class room to various places. Walking in group and crowding in a spot must be avoided.

Students are advised not to wear gold jewellery. Students should not bring expensive items, cameras, CDs, expensive pens, cell phones etc to school. In case of any loss, the school authorities cannot be held responsible.

In case of any problem, the students are advised to bring it to the notice of the Class Teacher/ Subject Teacher / Head. They should not fight with each other or try to solve it on their own through violent means.

Home work / assignment must be completed on schedule. Failure to do so will result in the student being detained after school hours to complete the same. Parents of these students will have to come to school to take the child home after the work is completed.

Students should respect the school property. They should keep the school campus clean. Trash, paper cups and bags should be put in the dust-bins kept at various places in the compound. Toilets should be kept clean after use.

Chewing gum is strictly prohibited in the campus.

Students should strive to fulfill their academic potential and actively participate in activities.

3. Note to parents

School officials are partners with parents in the process of educating children. Every parent, guardian and member of the school community shares in the responsibility of educating children in a safe and productive environment.

I . Social Networking sites like "WhatsApp, V chat & Facebook" which are very popular do have their advantages. However there is a time & place for everything in a person's life. School days are definitely not the right time for social networking. School children do not understand the pitfalls & the troubles they may get into because of this. All their personal details and information will become accessible to innumerable people. The entire family may land in trouble because of this. Information exchanged results in petty jealousy, heartbreaks, arguments and sometimes even fist-fights in the campus. So the School is totally against students getting into Social Networking as in addition to the dangers they result in, they are a total waste of precious time for students.

II. GENERAL

Please encourage your Child to be courteous and helpful.

Your interest in the Child's work would be of great value.

Please try to spend some time every day with your child to know about her / his day in school.

Stay informed of your child's ongoing academic achievement and progress.

In a day, please do not give your child more than Rs. 25/- to spend in the Tuck-shop.

III. "Reading maketh a man" so goes the proverb. Please encourage your Child to read as many books as possible. We insist on children reading at least one book a week till class VIII.

10. Socially Useful Productive Work (SUPW)

Socially Useful and Productive Work has been recognized as very important in the education of children. The present education scenario has proved that it is bookish in character and far away from the need of the society. It might be recollected here that Gandhiji was against education leading to the search for "White -Collared" jobs and felt that it should be work based. SUPW also leads to personality development and social transformation.

SUPW develops healthy habits of work by developing a positive attitude towards work. The child slowly develops the habit of co -operating with others and does any work willingly and confidently. Not only this, he /she exhibits responsible behaviour in all situations of life.

With all this in mind the school has decided to introduce SUPW from Std. I onwards.

Together we can help the child to develop into a responsible individual who contributes his mite to the society through SUPW.

I TERM: Community Service & Contemporary Studies
